

Patient Guide to Nuvalent Patient Support

Patient portrayal.

This guide is designed to provide information on Nuvalent Patient Support and the services available to help you access your prescribed treatment

Program Overview

Nuvalent Patient Support works with you and your healthcare provider to help you understand what to expect with your medication, provide information about your insurance coverage, and help you take the next steps to start and stay on treatment.

After you have been prescribed JIDEYTRO™ (zidesamtinib), the following programs and services may help you understand your coverage and identify financial assistance options for your medication. Our team is committed to supporting you throughout your access journey.

Patient Assistance Program*

If you do not have insurance, your insurance does not cover JIDEYTRO, or you are concerned about the cost of your medication even with insurance, the Patient Assistance Program may be able to provide your medication at no cost if you meet eligibility requirements

Bridge Program*

If you are already taking JIDEYTRO, and your insurance changes, you may be eligible for a free, temporary supply of medication while you wait for new insurance or coverage

Quick Start Program*

If you are new to JIDEYTRO and there is a delay in insurance review or coverage, you may be eligible to receive a free, temporary supply of medication while you wait for a coverage decision

Benefits Verification† and Coverage Information

A benefits investigation is conducted as a patient support service to help identify coverage information that may support patient access. The results will be shared with your healthcare provider

Copay Assistance Program‡,§

You could pay as little as **\$0 for JIDEYTRO** if you have commercial insurance. This program may help cover the out-of-pocket costs for your medication after your insurance company has paid. Patients with state or government-funded insurance (for example, Medicare or Medicaid) are not eligible for this program

To learn more about Nuvalent Patient Support and how to **enroll** in the programs above, visit **[NuvalentPatientSupport.com](https://www.nuvalentpatient.com)**. For additional assistance, please call us at **(844) 688-5333**, Monday to Friday, 8:00 AM to 8:00 PM ET

Please see back for next steps on enrollment.

*Please see the Patient Assistance Program, Quick Start Program, and Bridge Program terms and conditions.

†Verification of benefits is not a guarantee of payment and does not take the place of written policy information. Healthcare providers should carry out their own benefits investigation, as necessary.

‡Please see the Copay Assistance Program terms and conditions.

§Patients covered by Medicare, Medicaid, or any other state or federal government-funded plan are not eligible for the Copay Assistance Program. Maximum program benefit per calendar year applies.

Next Steps to Enroll in Nuvalent Patient Support

1

Speak with your healthcare provider about enrollment or start the enrollment process by [completing the form](#).

Visit [NuvalentPatientSupport.com](https://www.NuvalentPatientSupport.com) to learn more about how to enroll.

2

Sign the required consent(s) and submit the form. If you submit the form yourself, Nuvalent Patient Support will reach out to your healthcare provider for any additional information.

3

Once your form is received, a support representative will call you to:

- Review your insurance benefits
- Discuss the next steps
- Request additional signatures or required forms (if needed)

Accessing Your Medications

There are two ways you may receive your prescribed treatment:

Specialty pharmacy delivery:

Your healthcare provider may send your prescription to a specialty pharmacy called Biologics by McKesson, who will contact you to schedule your medication delivery.

OR

In-office dispensing:

Your healthcare provider's office may offer in-office dispensing, which means you may be able to receive your medication through their office.

Additional support may be available through advocacy and community groups. Our team can provide information about patient advocacy organizations that offer mentorship and resources for patients and their care partners.

If you have questions about insurance coverage for your treatment or would like help finding resources, contact Nuvalent Patient Support at **(844) 688-5333** or visit [NuvalentPatientSupport.com](https://www.NuvalentPatientSupport.com).
